

## BONUS OPPORTUNITIES – JULY/AUGUST 2021

Following are the NAPA Installer Rewards Bonus Opportunities for July and August, 2021. Be sure to go to the Bonus Opportunity section of [NAPAInstallerRewards.com](http://NAPAInstallerRewards.com) and click-to-participate to be eligible to earn these valuable bonuses.

\*Enrolled installers that click-to-participate by 7/1/21 are eligible for bonuses on their qualifying purchases from 7/1/21-8/31/21.  
Enrolled installers that click-to-participate later than 7/1/21 are eligible for bonuses starting that day through 8/31/21.

### NAPA Engine Systems Products

 <p><b>EARN 2X POINTS</b></p> <p><b>On Bosch OE Ignition Coils</b> BEM Group Code 10</p> <p>All Bosch ignition coils are built to &amp; have the Original Equipment (OE) specific design and are manufactured to be OE equivalent in fit, form and function and are known industry-wide for their reliability and performance. Bosch ignition coils convert low voltage into high ignition system voltage, creating an electric spark sent to the spark plugs which ignites the fuel.</p> <p>Key Features</p> <ul style="list-style-type: none"> <li>• Meets or exceeds OEM specification</li> <li>• Excellent mechanical stability and corrosion protection</li> <li>• Direct fit application</li> <li>• Lower fuel consumption and reduced exhaust emissions for your vehicle</li> <li>• Ensures reliable voltage for smooth engine performance</li> <li>• Backed by Bosch Limited Lifetime Warranty</li> </ul>	 <p><b>EARN 2X POINTS</b></p> <p><b>On MAHLE Original Gaskets</b> MOG All Group Codes</p> <p>Engineered by MAHLE Aftermarket, employs “application engineering” to design engine gaskets as a system. This involves research and testing to apply the optimum mix of materials and technology to each engine application. MAHLE Original gaskets offers a variety of specialized gaskets, including MLS (Multi-layered steel), solid core composite, and graphite head gaskets. MAHLE also has the latest sealing technologies for valve cover gaskets. Molded rubber gaskets have no joints, increasing durability and sealants are not required. Over tightening is prevented due to compression limiters and there is no torque loss or shrinkage. With unsurpassed standards of innovation and quality, MAHLE gaskets meet the most demanding conditions including drastic temperature extremes, high internal pressures and coolants and lubricants of every description.</p>
 <p><b>EARN 2X POINTS</b></p> <p><b>On Bosch Spark Plugs</b> BSH Group Codes 10, 35, 40, 45, 60, 61 &amp; 62</p> <p>We created the OE Fine Wire Spark Plugs Series for the aftermarket - including Double Iridium, Double Platinum and Platinum plugs. These spark plugs have the Original Equipment (OE) specific design and are manufactured to be OE equivalent in fit, form and function. Double Iridium provides 4X longer service vs. copper plugs, and Double Platinum provides 3X longer service life. All Bosch Fine Wire spark plugs come pre-gapped out of the box for faster installation. Also, the nickel-plated shell eliminates the need to use anti-seize. Exclusive 360° continuous laser weld fuses corrosion-resistant precious metal firing pin to base for durability and longest life.</p>	 <p><b>EARN A \$10 STARBUCKS GIFT CARD</b></p> <p>With purchase of a <b>Delphi Mass Air Flow Sensor</b> DEM Group Code 45, Parts with Prefix AF.</p> <p>Get the OE Quality you need with Delphi (All New – No Reman) Mass Air Flow Sensors. Limit one \$10 card per enrolled dealer. <i>Cards will be mailed by September 30, 2021.</i></p>

## BONUS OPPORTUNITIES – JULY/AUGUST 2021

Following are the NAPA Installer Rewards Bonus Opportunities for July and August, 2021. Be sure to go to the Bonus Opportunity section of [NAPAInstallerRewards.com](http://NAPAInstallerRewards.com) and click-to-participate to be eligible to earn these valuable bonuses.

\*Enrolled installers that click-to-participate by 7/1/21 are eligible for bonuses on their qualifying purchases from 7/1/21-8/31/21.  
Enrolled installers that click-to-participate later than 7/1/21 are eligible for bonuses starting that day through 8/31/21.

### NAPA Heating & Cooling Products

**EARN 2X POINTS**

**On NAPA Belts/Hoses Timing Component Kits**  
NBH Group Code 16

It's a good idea to replace the hard car parts when changing a timing belt. Pulleys and idlers wear out over time, and typically, getting to the timing belt requires significant disassembly. NAPA Belts/Hoses Timing Component Kits make it easy to do the job right: all the replacement auto parts you need in one box, with single-number ordering.

**EARN 2X POINTS**

**On NAPA Belts/Hoses Timing Belts**  
NBH Group Code 15

Long-lasting NAPA Timing Belts deliver high fuel efficiency. Engines designed with timing belt drives are more powerful and fuel-efficient than engines with chain drives. Timing belt drives produce less system friction than timing chains, which allows more engine power to be delivered to the drive train. Timing belts do not stretch as they are used, which means timing accuracy remains constant, delivering higher fuel efficiency over the life of the engine.

**EARN 2X POINTS**

**On DENSO AC Compressors**  
DEN Group Code 25

As one of the world's largest OE suppliers of A/C compressors, DENSO units are specified by most major vehicle manufacturers. DENSO First Time Fit® A/C compressors are manufactured and tested to the strictest OE standards for unparalleled performance. When it comes to new compressors, you can't do better than going with a unit manufactured by the OE supplier. At DENSO, we know these units better than anyone because we originally designed them. You can relax knowing DENSO will give you the right part and the right fit, the first time. Remember you can't spell DENSO without OE!

**EARN 2X POINTS**

**On NAPA Temp A/C Kits**  
ACK Group Codes 15, 20, 25 and 70

Those with "NAPA Know How" understand that performing a complete A/C repair is more than just replacing the Compressor; it takes the experience to know that changing the Drier and Expansion Device sometimes does not solve the problem. Today's high-efficiency Automotive A/C systems utilize incredibly small internal passageways to carry refrigerant through the system, and in some instances, the refrigerant pathways inside the condenser are no larger than a pin-hole, making it incredibly difficult to – if not impossible – to flush.

## BONUS OPPORTUNITIES – JULY/AUGUST 2021

Following are the NAPA Installer Rewards Bonus Opportunities for July and August, 2021. Be sure to go to the Bonus Opportunity section of [NAPAInstallerRewards.com](http://NAPAInstallerRewards.com) and click-to-participate to be eligible to earn these valuable bonuses.

\*Enrolled installers that click-to-participate by 7/1/21 are eligible for bonuses on their qualifying purchases from 7/1/21-8/31/21.  
Enrolled installers that click-to-participate later than 7/1/21 are eligible for bonuses starting that day through 8/31/21.

**EARN 2X POINTS**

**On NAPA Temp Fan Clutches**  
TEM Group Codes 71 and 72

NAPA Temp Electronic and Thermal Fan Clutches (by Hayden®) are designed, manufactured, and tested to meet or exceed critical OE performance specifications necessary for proper cooling system operation. Performance standards are derived from stress testing the OE fan clutch and fan blade under varying speeds, temperatures, and heat loads to determine the exact requirements essential to achieve proper airflow in all conditions. These superior quality standards and extensive testing procedures produce a reliable, OE replacement Fan Clutch for years of trouble-free service.

**EARN 2X POINTS**

**On NAPA Belts/Hoses Modular Hoses**  
NBH Group Code 80

Many late model vehicles now utilize a modular coolant hose system instead of the typical upper and lower radiator hose design of prior years. Modular hose maximizes space and efficiency in modern engine designs and is replaced as an assembly when they fail. NAPA Belts/Hoses modular hoses utilize state of the art hose and connector designs so shops can be assured that they are installing hoses that will fit, function and last as good or better than the original equipment.

**EARN 2X POINTS**

**On Spectra Premium Products**  
STP Group Codes 10, 15, 20, 30 and 50 &  
HNC Group Codes 20, 25, 30, 40 and 50

Spectra Premium innovates from the early stages of the design process to the final-product manufacturing. We provide solutions to new challenges, bolster existing products and aim to alleviate our clients' hurdles to their production and growth.
