### NAPA Engine Systems Products

**EARN 3X POINTS**

On **ACDelco Iridium & Double Platinum Spark Plugs**  
AC Group Codes 10 and 60

ACDelco spark plugs (Platinum, Iridium, Glow and Conventional) are the OE plugs that every General Motors vehicle has on it when it comes fresh off the assembly line. What comes off should go back on for the best guarantee of performance – it's really that simple. Buy ACDelco to give you peace of mind and to keep your Chevrolet, Buick, Cadillac, GMC, Pontiac and Saturn vehicles running like the day they came from the factory.

**EARN 3X POINTS**

On **DENSO First Time Fit® Direct Ignition Coils**  
when purchased w/4+ DENSO Iridium TT or Iridium Long Life Spark Plugs\*  
DEN Group Code 220

Constructed of superior materials that provide unsurpassed durability, outstanding RFI noise suppression, and reliability under extreme engine temperatures. DENSO First Time Fit® means that we take the best of OE and bring those qualities to the aftermarket. DENSO's Direct Ignition Coils provide unsurpassed customer satisfaction and value. \* DEN Group Codes 65 and 68

**EARN 2X POINTS**

On **MAHLE Original Gaskets**  
MOG All Group Codes

Engineered by MAHLE Aftermarket, employs "application engineering" to design engine gaskets as a system. This involves research and testing to apply the optimum mix of materials and technology to each engine application. MAHLE Original gaskets offers a variety of specialized gaskets, including MLS (Multi-layered steel), solid core composite, and graphite head gaskets. MAHLE also has the latest sealing technologies for valve cover gaskets. Molded rubber gaskets have no joints, increasing durability and sealants are not required. Over tightening is prevented due to compression limiters and there is no torque loss or shrinkage. With unsurpassed standards of innovation and quality, MAHLE gaskets meet the most demanding conditions including drastic temperature extremes, high internal pressures and coolants and lubricants of every description.
